ABOUT THE NEST SCHOOL

The NEST School is an international school with a 75-year legacy in education, offering renowned international curricula.

We are dedicated to nurturing a generation of leaders, scientists, and artists.

Our mission is to create 'self-actualized learners' who are grounded in values, driven by creativity, and have a collaborative, problem-solving mentality.

What is NESTival?

NESTival is a two-day interschool festival that brings together creativity, technology, and sustainability under one vibrant platform. Organized by The NEST School and powered by Meenakshi Sundararajan Engineering College, the festival celebrates the talents of young learners from Grades 4 to 12.

Inviting participants from Grades 4 to 12.

100+ SCHOOLS INVITED

Cultural & Creative Events

- **Aura Code (Dance with AI)** – A futuristic dance battle where performers sync their moves with AI-generated visuals on LED screens.
- **Vibe Check (Dance without AI)** – A pure dance showdown focused on creativity, choreography, and stage presence — no tech, just talent.
- **Indie Blend (Fusion Band)** – A live fusion of Indian and Western/indigenous music blending instruments, rhythms, and styles.
- **Soul Sync (Live Singing)** – Vocalists bring original songs or covers to life under the theme Songs for Change.
- **Silence Please! (Mime)** – Storytelling without words, using only expressions, gestures, and props to narrate "Fractured Realities."
- **Plot Luck (Improv)** – Quick-witted teams create unscripted stories and scenes live on stage from surprise prompts.
- **Art Intelligence (AI-referenced Art)** – Participants reimagine AI-generated visuals into hand-drawn or painted dreamscapes.
- **Eco Hues (Rangoli/Kolam)** – Traditional rangoli art using only natural, eco-friendly materials like flowers, pulses, and rice flour.
- **Flip Side (Turncoat Debate)** – A unique debate format where speakers argue for and against the same motion on AI and our future.
- **Vision Drop (TEDx-style Talk)** – Short, inspiring talks on innovations for a sustainable future.

Tech Events

- **Drone Dash (Drone Obstacle Race)** – Teams race their drones through hoops, gates, and tunnels in a test of speed and precision.
- **Maze-o-Bots (Robot Maze Challenge)** – Autonomous bots navigate a maze without remote control — fastest bot wins.
- **KickBot Arena (Robo Soccer)** – Robots face off in a soccer match, scoring goals while defending their turf.
- **Lights, Camera, 60! (YouTube Shorts)** – Create, shoot, and edit a 60-second vertical video on-site around the NESTival theme.
- **App Venture (App Development)** – Students design, build, and launch original apps with live demos on stage.
- **Digital Escape (AR/VR Puzzle Game)** – Teams solve interactive VR puzzles to escape within the time limit.
- **Survive (AR/VR Experience Game)** – A collaborative VR survival challenge packed with clues and interactive components.
- **Digital Detective (Debugging)** – Students debug programs to solve a cyber-mystery, uncovering clues stage by stage.
- **AI StoryScape (AI Storytelling)** – Creative storytelling and artwork built from AI tools and imaginative prompts
